

Sinclair Broadcasting's plans to air anti-Kerry programming two weeks prior to the election does not serve the public interest, is one side, and is a misuse of the public airways.

This clearly political use of the media is an obvious method to influence and not educate voters. Allowing Sinclair to utilize the public airways to promote Kerry bashing that provides no forum for response and only a one-sided view is unfair and dangerous for democracy.

Please put a halt to this blatant misuse and manipulation of the public airways.

Sincerely,
Amy Stringer
